Before You Begin: How Nafa Works

- **SECP-Regulated Brokerage:** Every Nafa account is backed by **Chase Securities** (an SECP-licensed broker and PSX TREC holder). Your shares are safely held in your own name with CDC.
- **Tailored Onboarding:** Whether you are a brand-new investor, switching from another broker, or a Non-Resident Pakistani (NRP), there is a simple step-by-step path for you.

Step-by-Step Guide: Choose Your Investor Path

1. Resident Pakistanis (Living in Pakistan)

A. Brand New Investor (No Prior Brokerage Account)

1. **Download & Sign Up:** Install the app via **nafa.com.pk/download** and create your account.
2. **Basic Details:** Enter your full name and CNIC number inside the Nafa app.
3. **Complete KYC on CGP:** You will be redirected to the Central Gateway Portal (CGP) to complete your KYC verification. Once approved, your account is ready to fund and trade!

B. Already Have an Account With Another Broker?

- You can keep your existing broker open and add Nafa alongside it.
- Log in to your existing **CGP Portal**, select **Add Another Broker** → **Chase Securities**, and copy the issued **Application Code**.
- Paste that Application Code inside the Nafa app to link your account. *(Note: Keep your existing Zakat status as-is on CGP; Chase Securities waives Zakat manually on Nafa accounts.)*

2. Non-Resident Pakistanis (NRPs)

- **100% In-App Process:** Unlike residents, NRPs complete the entire application directly inside the Nafa app—**no CGP portal** and **no local Pakistani phone number** required.
- **New NRP Investors:** Download Nafa and submit your NICOP/passport details directly in-app.
- **NRPs With Another Broker:** Request a *Tagging Document* from your current broker first, submit it to Chase Securities during onboarding, and complete your application inside Nafa.

Quick Summary Cheat Sheet

Your Investor Profile	Action Steps to Open Your Account
New Resident Investor	Sign up in Nafa → Enter Name & CNIC → Finish KYC on CGP Portal.
Resident (With Another Broker)	Log in to CGP → Add **Chase Securities** as broker → Paste Application Code in Nafa.
Resident (With Chase Securities)	Either email Chase to change dealer to **Nafa (Polygot Labs)** or open a fresh sub-account in Nafa.
New NRP Investor	Complete the full application inside the Nafa app. No CGP portal needed.
NRP (With Another Broker)	Get **Tagging Document** from current broker → Submit to Chase → Finish in Nafa app.
Transferring Existing Shares	Open Nafa (Chase) account first → Request CDC portfolio transfer from your old broker.
